FEDERAL RESERVE SYSTEM

Federal Open Market Committee; Domestic Policy Directive of July 5-6, 1995

In accordance with § 271.5 of its rules regarding availability of information (12 CFR part 271), there is set forth below the domestic policy directive issued by the Federal Open Market Committee at its meeting held on July 5-6, 1995.¹ The directive was issued to the Federal Reserve Bank of New York as follows:

The information reviewed at this meeting suggests that the level of economic activity was about unchanged in the second quarter. Nonfarm payroll employment fell in April and May after posting reduced gains in the first quarter, and the civilian unemployment rate, at 5.7 percent in May, was up somewhat from its first-quarter average. Industrial production continued to decline in May, reflecting another cutback in the production of motor vehicles, and capacity utilization was down somewhat further. Total retail sales have been sluggish on average in

recent months. Housing starts were about unchanged over April and May, but sales of new homes turned up sharply in May. Orders for nondefense capital goods have moderated somewhat in recent months but still point to considerable further expansion of spending on business equipment; nonresidential construction has continued to trend appreciably higher. The nominal deficit on U.S. trade in goods and services widened in April from its average rate in the first quarter. Broad indexes of consumer and producer prices have increased faster on average thus far this year, though there were signs of some moderation in the most recent data; advances in labor compensation costs have remained subdued.

Most interest rates have declined somewhat further since the Committee meeting on May 23. In foreign exchange markets, the trade-weighted value of the dollar in terms of the other G-10 currencies declined considerably over the intermeeting period.

M2 and M3 strengthened substantially in May and June. For the year through June, M2 expanded at a rate in the upper half of its range for 1995 and M3 grew at a rate well above its range. Total domestic nonfinancial debt has grown at a rate in the upper half of its monitoring range in recent months.

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. In furtherance of these objectives, the Committee reaffirmed at this meeting the range it had established on January 31-February 1 for growth of M2 of 1 to 5 percent, measured from the fourth quarter of 1994 to the fourth quarter of 1995. The Committee also retained the monitoring range of 3 to 7 percent for the year that it had set for growth of total domestic nonfinancial debt. The Committee raised the 1995 range for M3 to 2 to 6 percent as a technical adjustment to take account of changing intermediation patterns. For 1996, the Committee established on a tentative basis the same ranges as in 1995 for growth of the monetary aggregates and debt, measured from the fourth quarter of 1995 to the fourth quarter of 1996. The behavior of the monetary aggregates will continue to be evaluated in the light of progress toward price level stability, movements in their velocities, and developments in the economy and financial markets.

In the implementation of policy for the immediate future, the Committee seeks to decrease slightly the existing degree of pressure on reserve positions. In the context of the Committee's long-

run objectives for price stability and sustainable economic growth, and giving careful consideration to economic, financial, and monetary developments, slightly greater reserve restraint might or slightly lesser reserve restraint would be acceptable in the intermeeting period. The contemplated reserve conditions are expected to be consistent with moderate growth in M2 and M3 over coming months.

By order of the Federal Open Market Committee, August 31, 1995.

Normand R. Bernard,

Deputy Secretary, Federal Open Market Committee.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Citizens Advisory Committee on Public Health Service Activities and Research at Department of Energy (DOE) Sites: Savannah River Site Health Effects Subcommittee

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting.

Name: Citizens Advisory Committee on Public Health Service Activities and Research at DOE Sites: Savannah River Site Health Effects Subcommittee (SRS).

Times and Dates: 1 p.m.-5 p.m., September 21, 1995; 9 a.m.-5 p.m., September 22, 1995.

Place: Ramada Plaza Hotel, 640 Broad Street, Augusta, Georgia 30901, telephone 706/722-5541, FAX 706/724-0053.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 75 people.

Background

Under a Memorandum of Understanding (MOU) signed in December 1990 with DOE, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production use. HHS delegated program responsibility to CDC.

In addition, an MOU was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research,

emergency response, and preparation of toxicological profiles.

Purpose

The purpose of this meeting is to begin work to update the public on the status of CDC's and ATSDR's community involvement plans, health research, and public health activities and present consensus advice and recommendations to CDC and ATSDR regarding these plans.

Matters to be Discussed

The Subcommittee will take into consideration information provided by technical experts on the history of the Savannah River Site and present operations there, as well as updates on the Savannah River Site Dose Reconstructions Project findings and implications. The Subcommittee will also work on organizational issues relating to its future activities.

Agenda items are subject to change as priorities dictate.
